Dear Mr. Sion, Friends Around the World and Valued Customers

I heard that you have the desire to give an immediate assistance for this great calamity in Japan and I am filled with deep gratitude.

Japan is one of the world's most earthquake-prone countries and has experienced great earthquakes many times but the earthquake this time has caused an unprecedented damage. Fortunately, the area we are living was not affected but in the affected area, still thousands of people are missing and tens of thousands people have been forced to evacuate.

We wish as many lives as possible are saved and we pray with you that disaster victims can restore their peaceful daily life as soon as possible.

Last of all, again, I would like to show my heartfelt appreciation for your generous spirit.

Thank you
